Subject : The Brutal Dog Meat Trade

To whom it may concern

We thank you and appreciate for your attention and suggestion related to the dog in Bali. Herewith I inform you that :

1. The economy in Bali depends on tourism sector. The growth of this sector resulted an increasing contribution to the economy and also lead tourism as a leading economy sector in Bali.
2. As we develop cultural tourism, Bali Province Government has issued a provincial regulation, known as “ Peraturan Daerah Provinsi Bali No. 2 tahun 2012 tentang Kepariwisataaan Budaya Bali” (Provincial Decree of Balinese Cultural Tourism).
3. Tourism development planning and policy in Bali has been undertaken following the Balinese philosophy called TRI HITA KARANA, the three balance and harmonious principles in life : harmoniuns relation between human and the God, among human being and between human and the environment.
4. In our ritual life, we have many ritual activities. One of them is called TUMPEK KANDANG. It is the blessing ceremony to the cattle for good growth and product.
5. Nowadays the people in Bali are very heterogen. They come from all over Indonesia with different character and behaviour.
6. In relation with your attention and suggestion about the above mentioned subject, we will follow up by doing socialization to the Balinese people in order to implement TRI HITA KARANA philosophy in everyday life as the basis for sustainable development.

Once again, thank you for your attention.
