as Johnson & Johnson, Sputnik V or Convidecia, other conditions may be applied).

The International Travelers Entry Terms and Conditions

Guidelines for Pre-Flight:

- Download PeduliLindungi application.
- Do not have to show result of COVID-19 (neither PCR nor antigen swab test). Further terms and conditions are applied in Bali entry point.
- Vaccination certificates have to be integrated/authorized through <https://faq.kemkes.go.id/faq/cara-input-data-vaksinasi-non-indonesia-how-to-integrate-non-indonesia-vaccination-record>.

In case the system fails, the international travelers are allowed to present physical copy of vaccination (WHO authorized vaccines) certificates. Upon arrival at I Gusti Ngurah Rai International airport or Benoa harbour, staff at Bali entry point can assist to integrate data into PeduliLindungi application.

- The international travelers aged less than 18 years does not require showing COVID-19 vaccination certificates (neither physical nor digital copy).
- The international travelers aged 18 years and above are required to be fully vaccinated.
- International travelers who cannot get vaccine due to health reasons/comorbid/vaccine contra-indication are required to show health certificate with official signature and stamp from the Government hospital of origin countries and do not need to go through quarantine procedure in Bali.
- International travelers who recovered from COVID-19 are required to show health certificate with official signature and stamp from the Government hospital of origin countries that explains the international travelers has went isolation and no longer be contagious.
- International travelers who do not have full vaccine are required to go through quarantine in health protocols standards accommodations with own expenses for 5 (five) days. On day 4 (four), if the international traveler is tested negative, they can continue their travel plans on day 5 (five).
- Any proof of COVID-19 recovery is not assumed as vaccination.
- Travel insurance with COVID-19 coverage per person (booking online through: <https://balitourismhospitality.com/> or <https://www.jagawisata.com/COVID19/>
- All goods should be registered into Indonesia electronic custom declaration through <https://bcngurahrai.beacukai.go.id>

For all other citizens/passport holders they can still enter with at B211A Visitor Visa – same terms & conditions apply.

Guidelines for Health Check Procedures Upon Arrival:

- PeduliLindungi application has to be completed latest upon arrival in the entry point of I Gusti Ngurah Rai International airport or Benoa harbour (staff at the entry point can assist).
- At the entry point of I Gusti Ngurah Rai International airport or Benoa harbour, the international travelers pass through COVID-19 health check (such as thermal screening and other procedures).
- If the temperature is under 37, 5 Celsius, the international travelers may continue the activities.
- If the temperature is above 37, 5 Celsius, the international travelers are required to do PCR swab test on own expenses. PCR swab test can be booked online through <https://balitourismhospitality.com/> or offline at the entry point of the International Ngurah Rai airport or Benoa harbour.
- Payment of PCR swab test: IDR 275.000, can be done with:
Visa Card
Master Card
Debit Card
or paid in cash in IDR or foreign currency. Foreign currencies are USD, EURO, GBP, SGD or others as per set exchange rates.
- When the PCR swab test has been done, the international travelers check-in the accommodation and await PCR swab test result in the room (3 – 6 hours). If the PCR Swab test result is negative, the international travelers can continue the activities.
- If the PCR swab test result is positive with no or only minor symptoms, the international travelers are required to undergo 5 (five) days isolation at recommended isolation hotels which are currently the following properties: Desa Pramana Swan or Hotel Max One Ubud (subject may be changed), covered by health insurance or on own expenses.
- The international travelers with COVID-19 health issues will be admitted to recommended hospital (by insurance or on own expenses). The decision is made after physical examination by medical staff/doctor. On day 4 (four), if the international traveler is tested negative, they can continue their travel plans on day 5 (five).
- The international travelers must strictly follow the health protocol.

Departure Procedures from Bali:

- Procedure depends on the regulation of international traveler's destination.
- If the destination requires result of PCR swab test, it can be conducted at any of 27 (twenty seven) authorized laboratories or by accommodation visit service. The price is IDR 275.000 with extra charges for visitation/transportation, if the test is conducted at the accommodation (book on line through <https://balitourismhospitality.com/>)
- PCR swab test for departure is always conducted in the morning and the result will be received by WA or email in the evening at the same day, so it has to be conducted at least 1(one) or 2 (two) days before departure.
